

Fire Prevention Week

This week is Fire Prevention Week at Model Creek School. We are most fortunate to have both Yarnell Fire Department and Peoples Valley Fire Department personnel, along with some special guests coming to our school to demonstrate fire and personal safety practices.

The activities will include:

- Wildfire fighting demonstration including the tools used by local fire fighters and hotshots. Students will have an opportunity to try on and use some of the gear and see the fire-fighting trucks in action.
- Medical emergency demonstration including an appearance from both Lifeline Ambulance Service and Native Air Helicopter Service.
- Home fire safety including smoke detector testing and location; family fire drills; stop, drop and roll and safety with matches. Also a presentation by Yarnell FD on a structure truck used for fighting house fires.
- Fire fighter turnout demonstrations and relay race with fire hoses and spray demonstrations. All students are encouraged to bring another set of clothes to change into in case they should get wet.
- Parents are invited to attend any and all presentations starting at 1:00 each day. Preschoolers and kindergarteners are welcome to attend with a parent (at all times).
